DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by United States Patent Number 6,477,289 to Li.

As to claims 1, 5, 7, and 11, Li discloses in figures 5-7 and column 8, lines 26-46, an optical filter demultiplexing/multiplexing ADD/DROP module comprising a lens, three optical fibers, an optical filter and a mirror, wherein said three optical fibers are arranged on a single side of said lens.

As to claims 2 and 8, Li uses a GRIN lens. Rod lenses are commonly made as GRIN rod lenses.

As to claims 3 and 9, Li discloses the use of a capillary tube (column 4, line 21).

As to claims 4 and 10, the three optical fibers are in contact with each other in a through hole (figures 6A-6C).

As to claim 6, the filter is a wavelength selective transmitting film (118, 128).

Inventorship

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various

claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 01/12/2004 has been considered by the examiner and made of record (note the attached copy of form PTO-1449).

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. United States Patent Number 6,717,733 to Sato et al. for an optical module comprising a lens, multiple fibers, and a mirror.
- b. United States Patent Application Publication 2004/0047558 to Yasuda et al. for an optical module with multiple optical fibers.
